

## Oxfordshire Minor Eye Conditions Service

This new service for the assessment and treatment of minor eye conditions is funded by the NHS and is available from local opticians throughout Oxfordshire.

Appointments are available within 48hours.

Some eye conditions are better suited to immediate referrals to eye casualty. The common symptoms for this are listed below.

**Go direct to eye casualty if you have any of the following symptoms:**

- Worst ever painful, red eye
- Recent trauma or surgery to the eye
- Sudden, sustained loss of vision (less than 48 hours)
- Sudden onset double vision (less than 48 hours)
- Sudden onset flashes (less than 1 week) with blur, veils, curtains in vision
- Swollen eyelids with red, painful, bulgy eye, double or blurry vision
- Transient vision loss with headaches and soreness of scalp or jaw
- Painful eye with droopy eyelid, double vision and large pupil size.
- Previous history of iritis or anterior uveitis
